DIRECT ADMIT FROM HOME

► DIRECT ADMIT FROM HOME TO AVOID COSTLY RE-HOSPITALIZATIONS

If your patient needs a higher level of care with a risk for readmission for the same DRG in less than 30 days think of us!

DIRECTLY ADMITTING TO OUR CENTER CAN:

- Avoid costly re-hospitalizations
- Find appropriate placement for those patients who don't qualify for a hospital stay

OUR NURSING & REHAB CENTER SERVICES:

- 24/7 admissions
- RN coverage
- Short-term rehabilitation with on-site physical, occupational and speech therapies
- Orthopedic, pulmonary, cardiac, wound and stroke recovery care
- Respiratory therapist available
*Please inquire at center about this service
- Respite care

INFORMATION AND CRITERIA REQUIRED FOR DIRECT ADMISSION:

- Minimum 3 night inpatient hospital admission within the last 30 days required if patient has traditional Medicare. If patient has other insurance or a Medicare replacement policy, specific guidelines or requirements may vary.
- Physician order for SNF
- Current history and physical
- Current medication list
- Therapy note(s) or order for therapy
- Discharge summary
- TB skin test given within the last 30 days and read negative (provide documentation) and/ or chest x-ray with noted "no signs & symptoms of TB" from the physician (Please refer to state regulations for requirements)
- Patient may require 24 hour observation in order to get everything in place
